

AASTHA NARULA

Product Manager | AI-Mediated Growth | 0 → 1 Products | Platform / B2B SaaS
+91-9999513285 | aastha.narula20@gmail.com | [linkedin.com/in/aasthanarula](https://www.linkedin.com/in/aasthanarula) | Bengaluru / Remote-India

SUMMARY

Product Manager with **7 years** of experience across fintech, B2B platforms, and consumer businesses. Combines a Computer Science background with an **IIM Kozhikode MBA** to build 0→1 products, AI-discovery experiences, and operational platforms that drive measurable growth, conversion, and efficiency outcomes.

PROFESSIONAL EXPERIENCE

Birla Opus, Aditya Birla Group, Mumbai, India

Oct 2023 – Present

Digital Product Manager

Project Advisor Portal (*Estimation Platform* | *Sales Enablement*)

- Boosted advisor-led conversions by **20%** by designing and launching the first digital Estimation UI, co-creating prototypes with designers and embedding multi-estimation flows
- Improved advisor productivity by **10%** by digitizing manual color-code entry and adding preset bundles, reducing rework and enabling upsell opportunities.

Surveyor App (*Field Operations* | *Workflow Automation*)

- Improved survey submission rates by **18%** by launching offline sync, OTP-based confirmations, and guided flows—directly addressing underserved needs uncovered in field surveys.
- Improved surveyor efficiency by **~20%** with room auto-calculations and resident tagging, enabling more accurate estimates and higher conversion rates.

Birla Opus Website (*Growth* | *SEO* | *GEO* | *Conversion Optimization*)

- Led **SEO** and early **GEO** execution contributing to **~54% YoY organic traffic growth** and **~90% growth** in form-fills with no incremental media spend; built the funnel-tracking and attribution backbone that improved marketing **ROI 15%**
- Built the first **0 → 1 Budget Calculator** to close pricing-transparency gaps, delivering **724 qualified leads at 12.7%** conversion rate — 2.5× the site-wide target — and a reusable playbook for intent-specific conversion tools.
- Authored the **GEO roadmap** by defining Share-of-Model measurement, golden prompts, structured-data requirements, citation surfaces, and AI-discovery tracking frameworks
- Used **GenAI** tools for discovery and prototyping to generate wireframes, flows, and concepts before design engagement, cutting design turnaround **~60%** and validating ideas earlier with users.
- Ran a PRD-led delivery operating system across marketing, engineering, agency, and vendor teams — authoring PRDs for the Painting Services marketplace transition, instituting tracking discipline, and resetting vendor delivery cadence to close ownership gaps.

Territory Optimization (*GIS* | *Route Optimization* | *Field Productivity*)

- Improved TSM productivity by **30%** by leading vendor evaluation and deploying algorithmic geospatial mapping to eliminate coverage overlaps and gaps across **20+ territories**.

JSW One Platforms Limited, Mumbai, India

June 2022 – September 2023

Associate Product Manager

- Co-owned a 0 → 1 Order management system, improving order-processing efficiency **~30%** and cutting manual errors **~30%**; owned specs, wireframes, and MVP scope across operations, category, and finance.
- Redesigned the IVR support journey through competitor benchmarking, cutting customer wait time 30% and raising NPS.
- Improved inter-team resolution turnaround by 25% by implementing a JIRA-based ticketing system for category & operations teams, strengthening cross-functional collaboration.

Fidelity International, Gurugram, India

July 2016 – June 2020

Product Analyst (Sep 2019 – June 2020)

- Improved GDPR compliance and client trust by reducing runtime of data anonymization modules by 50%; collaborated with legal and compliance teams to ensure zero regulatory breaches.
- Delivered a C-suite reporting solution 5 months ahead of deadline, streamlining decision-making at the executive level achievement recognized with the Fidelity Spot Award (1 of 8 winners in a 250+ org)

Software Engineer (July 2016 – Sep 2019)

- Improved time-to-insight for portfolio managers by 40% by consolidating siloed datasets into a single enriched source, enabling faster decision-making.
- Doubled efficiency of data provisioning by diagnosing bottlenecks in feeds; partnered with operations and QA teams to redesign workflows, reducing SLA breaches.

EDUCATION

Indian Institute of Management, Kozhikode

Master of Business Administration, 2020 - 2022

3.44/4.33 CGPA

(IIMK Top 15%ile)

Thapar Institute of Engineering and Technology, Patiala

B.E., Computer Science, 2012 - 2016

8.03/10 CGPA

SKILL SUMMARY

- **Product:** 0 $\rightarrow$ 1 & 1 $\rightarrow$ N building, Roadmaps, PRDs / specs, MVP scoping, RICE, Impact $\times$ Effort, JTBD, North-Star metrics, GTM, Stakeholder management
- **AI & Technical:** GEO / Generative Engine Optimization, Share-of-Model, AI answer-engine visibility, GenAI prototyping, structured data / JSON-LD, llms.txt, FAQ schema, APIs, data workflows, algorithmic / GIS products
- **Data & Growth:** Funnel & cohort analysis, conversion optimization, experiment design, pre/post measurement, SQL, GA4, Adobe Analytics, Adobe GTM, Excel
- **Research & UX:** Field research, shadowing, contextual inquiry, journey mapping, personas, wireframing
- **Tools:** JIRA, Confluence, Figma, Adobe Experience Manager (AEM), GA4, Adobe Analytics, GenAI tools, SQL

INTERNSHIPS & RECOGNITION

NITI Aayog India

Jan 2022 – Mar 2022

Research Intern; part of a 5-member team studying employability of technology graduates in India

JSW Steel India

Apr 2021 – Jun 2021

Management Intern; Best Project Award among 44 interns for demurrage RCA and IBRM cost optimization
